

Visitor Restrictions

Due to Increase of Flu

Attention: Patients and Visitors

With quality and patient safety our top priority, we are restricting visitors to individuals age 14 and older to help reduce the spread of the influenza virus.

Also, please DO NOT visit if you have had any of the following:

- A fever of 100°F (or higher), cough and/or sore throat within the last 7 days.
- A flu-like illness, fever, pneumonia, or acute respiratory distress within the last 7 days.
- A positive flu test within the last 7 days.

Thank you for helping us keep you and your loved ones safe and healthy!
