Media Statement Regarding Huffmaster's Services at Mercy Hospital

Registered nurses and other temporary replacement workers requiring clinical licensure who are caring for and serving patients at Mercy Hospital during CWA's strike are properly credentialed to work in New York State. The New York State Health Department has visited Mercy Hospital several times during the strike and has found the care and service to be in compliance with state regulations. Huffmaster Companies is in contact with the Attorney General's office to address their questions.
